IELTS Up Words!

Lesson 10: School

School

You are listening to the tenth lesson of IELTS Up Words! I am Yasi, your IELTS mentor from Lingemy.com. Now, in this lesson, we are going to work a bit on school-related words and expressions. What do you think? Do you like this subject? Do you remember your primary school days? How about high school? To be honest, this is not my favorite subject! I did not have the best time as a student myself and would have played truant more often if I were brave enough! Haha! Just kidding! Anyway, we need to prepare for every sort of question that might pop up in your exam, so let's get right into this one and see how you answer today's question.

Talk about some of the challenges in the educational system of your country.

I think two of the biggest hurdles in the way of the educational system in Iran are its underdeveloped infrastructure and impractical courses. These days we are learning more and more about the importance of distance learning and how cost-effective and time-saving it can be. Thanks to technological advances, students can stay home and attend some lectures online or do their assignments and submit them via the Internet, but unfortunately, this country does not have the necessary infrastructure for E-learning, which should be addressed. Moreover, school curriculums are mostly outdated with few useful subjects, which can cause a lack of interest among students.

Speaking Tip

The Art of Storytelling

- Think of the words you know and the theme of your story. What do you want it to be about?
- Choose something easy and straightforward.
- Practice by making little changes to personal experiences to make them more exciting, entertaining, or relevant.
- Making up stories in IELTS speaking is not a bad thing!
- Make a story based on the vocabulary you know. For example, if you know a lot of words about remote learning or disruptive students, base your story on those themes.

topic-related words and structures	meaning	translation	other structures
primary school (BrE)	a school for children between the ages of about five and eleven years old in England and Wales	دبستان	synonym: elementary school; grade school
