## Lesson 12: Learning a Language

Learning a Language

Hello, my friend! Welcome! We are to begin the twelfth lesson of IELTS Up Words! Number twelve is my new favorite number. Why? Because it has this magical and spiritual vibe to it. What is your favorite number? Remember to say why. As you know, this is actually a great way to improve your speaking. Make a list of things you like and dislike. Then, ask yourself why and give as many reasons as you can. This will not only improve your speaking but also your essay writing skills.

Now it is time to listen to this lesson's question. It is about what we are all trying to do here, about learning a new language.

Do you think it is difficult to learn a new language? Why?

To be honest, I don't think it is that hard. I guess the only difficult thing about learning a language is its time-consuming nature. That is to say, you need to spend a lot of time working on different language skills and memorize new vocabulary. Needless to say, most people also take language courses and have an instructor drill grammar rules for them to learn better, which in turn takes even more time. Spending so much time on learning a new language is inevitable, though. Because it really takes a lot of time to become accurate and fluent like a native speaker and overcome language barriers. When all is said and done, there is little we can do to shorten this learning period, and I think it is not necessarily a bad thing.

# Speaking Tip

- Paraphrasing: using synonyms
- Rephrase by replacing words with their synonyms.
- Choose synonyms wisely.
- Replace with words that are used in spoken English, and do not sound strange. For example, do not replace “children” with “offspring.”

**Example**

Question: What do you do to improve your grammar?

Answer: I read a lot of news and analyze the structures used there to brush up on my grammar.
