IELTS Up Words!

Lesson 39: The Social Media

You are listening to lesson thirty-nine of IELTS Up Words! Welcome back! I am here to talk about a controversial topic: social media and its disadvantages. I am going to ask you three questions here. Ready?

Why has social media become so popular these days?

I believe it is because of the flashy content that it has provided us with. Social media is littered with attention-grabbing content, which is perfect for when you want to entertain yourself. Moreover, it gives you this short-lived sense of happiness by the likes you receive. Take Instagram, for example; you can post pictures there and feel good when your post gets a lot of likes, so, when you want to feel happy again, you post more pictures, and, therefore, your use increases.

How can social media negatively impact young people?

Well, it can cause various mental problems for the youth, such as depression, anxiety, and low self-esteem. I think this is because of the large number of superficial photos and videos that people post on social media platforms to showcase their seemingly perfect lives, which, in fact, is not even true. Another downside can be the fact that due to its addictive nature, it can distract young people, especially teenagers, from their studies.

How can governments play a role in the process of solving problems resulting from social media channels?

Governments can help by banning abusive content or setting an age limit for certain websites. By that, I don't mean for them to start to intrude into the lives of citizens or implement more censorship because these restrictions will only add insult to injury. I merely suggest that they protect the more vulnerable users by making cyberbullying, trolling, and online hate speech illegal.

Speaking Tip

Prefixes

Learning prefixes and suffixes helps us understand the meaning behind different vocabularies.

We will be able to break down unfamiliar words into segments that are easily understood.

They facilitate learning a lot of new words.

A prefix is a letter or a group of letters that we add to the beginning of a word.

Prefixes change the meanings of words. For example, the prefix “un” can mean “not,” and so adding that to “happy” gives you the word “unhappy,” which means not happy.

prefix	meaning	examples
anti	against	antisocial, antibiotic, antivirus
auto	of or by itself	autopilot, autobiography
bi	two, twice	bilingual, biannual
micro	small	microscopic
macro	large	macrocosm
pro	in favor of	pro-abortion, pro-government
post	after	postgraduate, post-war
under	not enough	undercooked, underused

topic-related words and structures	meaning	translation	other structures
flashy content	attractive or impressive content	محتوای خیره‌کننده / جلب‌توجه‌کننده (در ظاهر جذاب، اما در باطن بی‌ارزش)	
littered with attention-grabbing content	full of attractive and attention-grabbing content; if something is littered with things, there are a lot of those things in it	پر از محتوای جلب‌توجه‌کننده	be full of something eye-grabbing; grabbing eyeballs
a short-lived sense of happiness	if a feeling or experience is short-lived, it only lasts for a short time	حس خوشحالی گذرا	opposite: long-lasting
mental problems	problems relating to the disorders of the mind	مشکلات روانی	synonym: psychiatric informal: if someone is mental, they are mad or insane
