IELTS Up Words!

Lesson 6: Health

Health

Hello there! Welcome to the sixth lesson of IELTS Up Words! I am Yasi, your IELTS mentor, and I am here—just like in the previous lessons—to help you improve your range of vocabulary and get ready to take the test!

Tell me, do you get enough exercise? Do you eat plenty of fruits and vegetables? Because, you know, they contain lots of vital nutrients. If you want to improve your IELTS score, you need to maintain a healthy lifestyle and take care of your health as well, right?

So that is why we are going to look at a few health questions here. Listen to these questions, pause if you need, and do your best, like always, to answer these questions, then go ahead and listen to my response.

Do you have any unhealthy habits?

Well, I think I do. When I'm stressed, I eat large portions of food. I just can't help it because when I'm stressed, nothing seems to help curb my appetite. I also oversleep when I'm anxious, but I'm not sure if it counts as unhealthy.

What do you do to stay healthy?

Umm, I do several things to maintain my health. For example, I avoid eating junk food that contains a lot of unhealthy additives. And I make sure to include some aerobic exercises, like jogging, to my daily routine.

Speaking Tip

How to and Why Record Yourself

- It will give you some perspective.
- It will help activate what you learn.
- It will improve your confidence.
- It will help you spot your mistakes.
- Record your voice to answer to some questions.
- Record your voice to create an audio journal.
- Do not listen to your recordings right away.

topic-related words and structures	meaning	translation	other structures
