IELTS Up Words!

Lesson 65: Modern Life

Hi there! You are late! I was waiting for you all day! Where were you? Did you get stuck in traffic again? You do realize that it is not a good excuse anymore, right? It is a cliché! I understand the fact that we are living in this modern world, and with it comes a lot of problems such as traffic congestion, but the world is not to be blamed for everything that goes wrong. Sometimes, we need to take the blame for our actions.

In the previous lesson, I talked about fashion and the destructive nature of this industry. I also talked about the need to change our spending patterns and reduce our personal consumption. I know that mass branding and other promotional tactics spur us to shop, but I am sure that with the help of our willpower, we can steer clear of those temptations and avoid buyer's remorse as well because, like they say, where there is a will, there is a way. This is a proverb that means if someone is determined to do something, he or she will find a way to accomplish it regardless of obstacles.

Aside from traffic jams and consumerism, we face a lot of other problems. One of the biggest problems is a serious health condition called obesity. Obesity is when one's weight is well above normal. So, it is not like we call people who are a little overweight obese. No, it is only when they weigh a lot more than they should.

We have talked about anorexia before, remember? I think obesity is its opposite. Both of them should be treated, though, as they are dangerous eating disorders. Other eating disorders that you should know about include bulimia and binge eating disorder. People with bulimia may secretly binge, which means eating large amounts of food with a loss of control over the eating, and then purge, trying to get rid of the extra calories in an unhealthy way, and since this disorder is related to self-image, it can be hard to overcome.

Our self-image is what causes a lot of problems and insecurities. Most women want to be lean, saucer-eyed, and strikingly beautiful, with an upturned nose, a lovely complexion, an hourglass figure, and sleek, shoulder-length hair. And most men probably want to be well-built, with broad shoulders, thick hair on their head, and a washboard stomach.

As a result, cosmetics is such a popular industry these days with all the excruciatingly painful plastic surgeries and pills that claim to be clinically proven to banish wrinkles and have anti-aging properties.

All in all, as I said, there are a lot of problems that we have to deal with in this world. Can you also name some other problems? What do you think of the issues that I mentioned in this lesson? How can we tackle them?

Speaking Tip

Mnemonics

- A mnemonic is a pattern, idea, or association that you use to help you remember something.
- When you want to learn a word, think of something, such as a person, place, fruit, etc. that you can associate with that word, then build a funny mental image of that thing to help you remember the word.
- The funnier or more hideous that mental image, the better, because your brain will remember it more easily.
- Do not use Persian words or sentences in this technique because you don't want to ruin your pronunciation.

topic-related words and structures	meaning	translation	other structures
traffic congestion	when vehicles travel slower because there is too much traffic on roads	راهبندان	traffic jam; a congested road
the destructive nature of this industry	the harmful quality of this industry	ماهیت ویرانگر این صنعت	characteristic
spending patterns	the particular ways that we purchase goods and spend our money	الگوهای مصرفی	
personal consumption	personal usage of something	مصرف شخصی	consumer spending
