IELTS Up Words!

Lesson 8: Life

Life

Hello there! You are listening to the eighth lesson of IELTS Up Words! Bravo! I think you deserve your first round of applause now. Give it up for this hardworking learner, everyone! I am positive you will score high in IELTS. Just practice everything you learn in each lesson and take your time to let it all sink in and then move on to the next lesson. Okay?

Now, let's get right into the lesson today. Today we will talk about life! Yes, life, oh life! I am a great admirer of life. What about you? First, I want you to tell me whether you are a pessimist or an optimist. I really hope that you are an optimist because I take an instant dislike to people who nag all the time! Anyway, now I have another question for you. Listen to it and then make sure to answer it yourself before listening to my response.

Do you think more people are pessimistic or optimistic these days?

Well, unlike myself, I assume most people nowadays tend to be more pessimistic. I don't like making broad generalizations, but I am saying this because I look at my friends and all I hear them talk about is how life is full of disappointments and how tough it has become to make a living given the constant rise in the cost of living. But I have to admit I know where they are coming from. Life is not filled with recreational activities; there are lots of ups and downs and keeping up with the standard of living these days sure can turn most people into pessimists.

Speaking Tip

Brainstorming

- Brainstorming is group discussion to produce ideas or solve problems.
- With a little twitch, you can use it for your speaking and writing too.
- The key is to write down anything that comes to your mind.
- Organizing your ideas and crossing out bad ones would be the next step.
- It is a great way to activate your vocabulary.

topic-related words and structures	meaning	translation	other structures
